INTERFERENCE SEARCHED			
Class	Sub.	Date	Exmr.

This is a high-contrast, black and white image of a book's spine. The spine is oriented vertically and shows a heavily textured, possibly leather or cloth, cover. The left edge of the image is dark and shows the binding structure, while the right edge is a bright, almost white vertical strip. The central part of the spine is covered in a dense, grainy texture with varying shades of gray, suggesting wear and the material's surface. There are no titles or markings visible on this side of the spine.
